

AGHAM in 2023: By the numbers

27 new members

We recruited 27 new AGHAM members from all over the Philippines (Luzon, Visayas, Mindanao) and around the globe (Australia, Belgium, Canada, and Germany)! Keep an eye out for new chapters in 2024 👁️

90 news landings

Our analyses on issues of the day such as reclamation, Mindoro oil spill, peace talks, nuclear energy, SIM registration, Balik Scientist program, and others have reached both mainstream and alternative media outlets.

31 educational discussions

We conducted 31 educational discussions on different aspects of the state of science, technology, and society with audience from members and allies.

37 speaking engagements

We were invited to 37 forums and discussions to talk about our perspective as scientists for the people on different sectoral and national issues.

4 basic masses integration

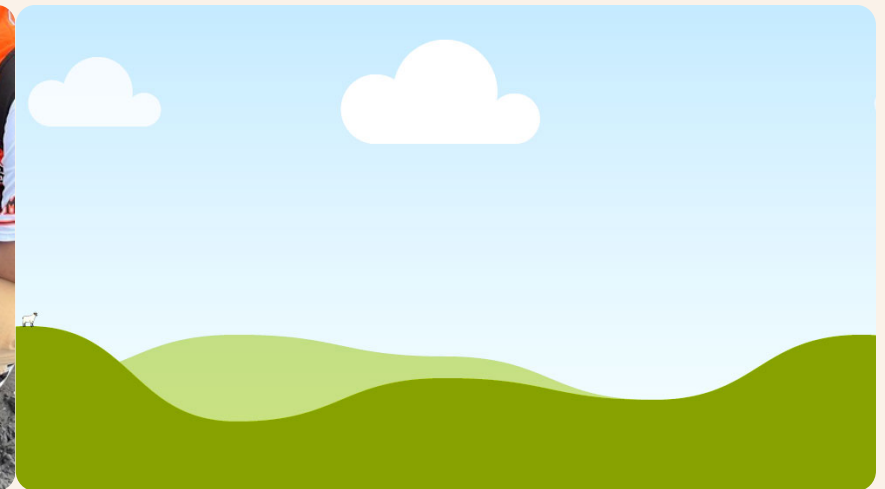

We held 4 basic masses integrations with communities affected by oil spill, reclamation, dredging, and demolition in Bulacan, Cavite, and Manila.

100,000+ people reached

Our infographics, videos, statements, and educational materials have reached more than 100,000 people on different social media platforms.

AGHAM 2023 Milestones

Mindoro Oil Spill Impact Assessment

We responded quickly to the urgent need to assess the extent of damage of the oil spill in Mindoro in March.

People's Science Summit 2023

The summit brought together scientists, teachers, grassroots communities, and advocates of science and technology for the people.

Researches on Reclamation

We held field works and community immersions to study the impacts of reclamation and dredging.

What will be our next milestone?

Progress is never linear nor finished. The year may be ending soon, but this 2023 we built the foundations for what will be our milestones in the coming years.

AGHAM: 24 years of making S&T serve the people!

Exciting things await us for our 25th anniversary! 📈🏠🏡

Mission accomplished!

Thank you for a fantastic year of making science and technology serve the people! Here's to a fruitful 2024 ✨
